It was in this very cottage in Brookside, 15 miles from Birmingham, Ala., that three Italians nearly died of Fever. They had been sick 3 months. Johnson's Tonic cured them quickly---read letter below:

Brookside, Ala., May 4, 1903. The two physicians here had 3 very obstinate cases of continued Malarial Fever. An were Italians and lived on a creek 50 yards from my store. These cases were of three months standing, their temperature ranging from 100 to 104. The doctors had tried every thing in vain. I persuaded them to let me try Johnson's Tonic. I removed all the printed matter and let the medicine go out in a plain bottle as a regular prescription. The effect in all three cases was immediate and permanent. They recovered rapidly and there was no recurrence of the Fever. S. R. SHIPLETT.
